REMARKS

2. On 17 May, at 5:20 p.m., four jet planes
 were ready to take off on the southern edge of the field. Ten additional
jet aircraft were parked in the eastern section of the field and six jet
planes were seen in the air.

3. On 18 May, at 6:30 a.m., jet aircraft were parked
near the temporary building used for flight control. Seventeen jet fighters
covered with tarpaulins, and two biplanes were parked in the eastern
section of the field. Two single-engine planes and two biplanes were seen
in the northern section. Practice missions were flown during the day.

4. The field was observed on 17 May between 4:45 and 6 p.m. from its southern
edge. The visibility was about 8 to 10 km and the cloud base about 1,000
meters. About 12 to 15 jet fighters were parked on the eastern edge of the
field and four additional jet planes near the temporary building used for
flight control. A jet fighter, with an air exhaust
under the fuselage, was parked in the southwestern corner of the field. Next
to the jet fighter were three tank trucks and truck with a one-axle
trailer, fitted with rubber wheels. The trailer had a superstructure,
cylindrical in shape, about 150 cm long and 60 to 80 cm in diameter. A blue
steel plate, about 15 cm in diameter, was fitted on top of the side section
of the cylindrical body.

5. At about 5 p.m., six jet aircraft landed at the field at short intervals.
 two red signal lights were
fired from the take-off point where three trucks, one with windows, and two
passenger cars were parked. Upon the signal a single-engine plane took off
from the field. jet fighter followed about 15
minutes later. About 22 jet fighters were parked at the field at the end of
the time of observation. The west end of the runway was marked with two
red barriers about 75 meters apart. No boundary lights were seen along
the runway.

6. At 10:40 a.m. on 25 May, about 20 to 25 jet fighters were parked at the field.
 One jet
plane seen at the field was of another type. *
